2.2 Assessment addresses the 5 Essential Elements of the IB-PYP.

2.3 Assessment monitors student growth through the IB-PYP Learner Profile Attributes.
2.4 Assessment for improved student learning and deep understanding requires a range of formative and summative assessment practices to be used with three overarching purposes:

2.4.1 Assessment FOR learning (formative) - occurs when teachers use inferences about student progress to inform their teaching;

2.4.2 Assessment AS learning (formative) - occurs when students reflect on and monitor their progress to inform their future learning goals;

2.4.3 Assessment OF learning (summative) - occurs when teachers use evidence of student learning to make judgments on student achievement against goals and standards.

3. Guidelines

3.1 Assessment is based upon an understanding of how students learn.

3.2 Assessment is an integral component of learning across the curriculum.

3.3 Student self-assessment and peer-assessment are integral to the process of authentic assessment.

3.4 Assessment provides information for teachers to report accurately to parents on student achievement.

3.5 A variety of assessment tools, eg. rubrics, provide teachers with evidence of what students know and can do, and their particular strengths and weaknesses. Teachers report to parents on how far their child has progressed during the year and the next steps in their child’s learning.

3.6 Success Criteria will be provided so that students know what is expected of them from each assessment they encounter.

3.7 Reports reflect student progress aligned with AusVELS until the end of 2016 (VIC Curriculum in 2017) and a demonstrated understanding of the IB-PYP components.
