Grade 5 Camp

On Monday 24th May, 106 Grade 5 students and 11 teaching staff travelled to Phillip Island Adventure Resort (PIAR) for a week of camp. Day one went smoothly with a stop at the Lighthouse Playground in Tooradin to stretch the legs and have a snack before continuing on to PIAR. Once at camp, we met our host Luke, got settled into our cabins and began our activities. Raft making was a good test of students' resourcefulness and also made for a good laugh when our efforts ended with many of us taking a dip instead of floating on top of the raft! The highlight of the night was Mrs Ferguson singing camp songs around the fire after our night walk. Tuesday was filled with more activities and plenty of rain but we were determined to push on and finish them all. At the end of the day teachers and students alike looked forward to a nice warm shower and dinner after a full day. Wednesday and Thursday brought more wet weather but we were ready, Mrs Kennedy, Mrs Jakobi and the camp staff were in full swing drying all of our wet clothes from the previous day. It was impressive to watch! However, if you ask the students, the Giant Swing and Circotron were definitely the highlights. After a whirlwind camp, we had to pack up in a hurry and return home early. We arrived back to school at 6:30pm, tired from the day's activities and looking forward to seeing our families and sleeping in our own beds but there was still more to do. In the dark we coordinated all students to not only find their luggage but also gather up all their necessary belongings for remote learning, truly a monumental effort.

I would like to say thanks to all of the students for making this camp such an enjoyable experience to share. Last of all to the teaching staff who gave up time away from their families I thank you for your flexibility, quick thinking and determination to ensure that students received an enjoyable and full camp experience.

Congratulations to our Science Talent Search Students!

This year we have seen a great uptake of our Science Talent Search Competition. The theme this year was *Food: Different By Design*. Students across the school have been working hard at home on a range of projects including scientific posters, creative writing and even some photography! We have learnt a lot about Bees, Food on Mars, and even the best fertiliser program for optimal Pak Choi growth. Thank you to all of our students for their hard work over the last few months, and a huge thank you to all of the parents/carers that have supported these students in their scientific endeavors.

The following students will be working with Miss Macfarlane and Miss Binding to perfect their projects and will be competing in the Victorian Science Talent Search later this year.

Congratulations to everyone who submitted their projects!
